Overview

University of Delaware ranks 177 out of 261 schools in the 2027 College Free Speech Rankings with a score of 58 and an F speech climate grade.

Delaware lands in the bottom 25 for "Political Tolerance," showing reduced student willingness to host controversial speakers. Its "Self-Censorship" rank jumped 104 places from last year, indicating less hesitation to speak. The data shows no top 50 strengths.

The campus maintains a "yellow light" Spotlight rating. Delaware should revise its student policies to earn a "green light" Spotlight rating, adopt the pro-free speech Chicago Statement, and adopt an official commitment to institutional neutrality. It should respond clearly and forcefully to defend free speech whenever censorship occurs or is demanded. Doing so will demonstrate the university's commitment to free speech and build community trust that the administration will defend expressive rights.
